CHAIRMAN'S
MESSAGE

Academia International College is a dynamic and progressive educational institution that aims to provide the best possible education to the students under its care set within the parameters of sound values and a disciplined environment.

Our objective is to provide students with the opportunity to serve, to lead, and to fulfill their potential in all spheres so that they can take their place and succeed in the modern world.

High standards and expectations for each student regarding academic performance, co-curricular participation, and responsible citizenship are the foundation of our college. It is with pride that we hold these high standards and ask each of our students to commit to maintaining the extraordinary record of achievement and contribution that has been the legacy of Academia students. It is the contribution of our students to our College community that makes Academia International College an exceptional learning community. Full participation in academic and co-curricular programs and a willingness to act responsibly as an individual within our educational environment are the factors that enable all to have a successful and enjoyable student life.

Our facilities are superb, the management of the college is dynamic and creative, the teachers are highly motivated, and we enjoy the expertise of a committed group of parents in our College family.

I look forward to working together with you as we strive to raise the benchmark of higher education in Nepal.

Bobby Pradhan
Chairman
Academia International College

CAMPUS CHIEF'S
MESSAGE

Thanks for your interest in the Academia International College. Academia International College is an educational institution of distinction, combining excellence with innovation. Academia International College places a high value on providing its students with a fulfilling educational experience in their chosen discipline. It aims to provide students with a solid academic foundation and enable them to achieve their individual goals. Extensive applied research ensures that the best and latest developments in industry, commerce and the public sectors are incorporated into our courses.

At Academia International College, we are proud of our extensive links with professional bodies and employers, ensuring that our courses are relevant to employers' needs and equipping you with the knowledge and skills required in the workplace of tomorrow.

Our professionally relevant courses are continually adapted to meet the changing needs of students, employers, and society. The flexible, accessible, and responsive approach ensures you will benefit from the latest research, technology, and industry practices.

We pride ourselves on our friendly atmosphere and sense of community. The academic life is balanced by a thriving social life and staff are always on hand to help or offer advice. Students and staff work closely together to ensure that you get the very best from your time in the college.

I hope you will choose to join us at Academia International College, and I look forward to welcoming you.

Rajesh Shrestha

Academia International College

ACADEMIA INTERNATIONAL COLLEGE

Academia International College is one of the premier institutions dedicated to providing quality education in a fully integrated, multicultural environment. The College occupies a spacious area at Lalitpur with excellent facilities. In our graduate school, we are one of the pioneer institutes in Nepal that introduced B.Sc.CSIT, BCA, BBM, BBS, and MBS program offered by Tribhuvan University. Academia International College is committed to achieving excellence in the academic development of students and professionals. We strongly believe that the Academic programs at Academia are going to acquire a distinguished reputation for being the most rigorous and fulfilling course in the category.

Our education system must evolve to keep pace with the mighty changes occurring today in business, industry, and society. Students must develop attributes and knowledge beyond the traditional constraints of the classroom. Education System must be designed to accommodate current trends and future needs. It must create more connections and more robust partnerships with the global society we are embedded in. Our goal is to articulate the role of education in the early part of the 21st century and to establish design specifications that will enable our students to be leaders in shaping the future of the world. As such, must address the full range of higher education, teaching and learning, research, and service to the community. Indeed, these three elements must be integrated if we can be effective in pursuing our mission.

VISION

To be a reputable and creditable college, producing quality graduates at a competitive level in line with the international education philosophy.

MISSION

To serve society and enhance the quality of life through excellence and leadership in vocationally and professionally relevant education, research and consultancy, as an academic community which is outward looking and committed to innovation and lifelong learning.

VALUES

We're proud of what we do - we act sensitively with the highest standards of integrity and social responsibility. We are restless, always learning, continually improving. We constantly set high standards and then try hard to exceed them. We deliver results, win where we compete and celebrate our success. We value each other - we seek and benefit from diverse people and perspectives. We strive to create mutually fulfilling relationships and partnerships.

Education at Academia

> 66 The colleges provide the hub to the personal contact that is the distinguishing factor that marks out education at the **Academia International College**. 99

Our personal approach starts when we select students and continues throughout their courses. The pace of learning at Academia International College is intense. Not only is the pace of learning intense, but course contents can challenge even the most talented students. Of course, we select students who we believe can meet the challenge.

You will be encouraged to work closely with your Program Coordinator, whose responsibility is to oversee students' progress over their courses and organize college teaching. Usually, you will have monthly supervision in all the major topics covered by your university course and each teacher writes a report on your progress each term. This helps Program Coordinator and tutors to monitor your progress.
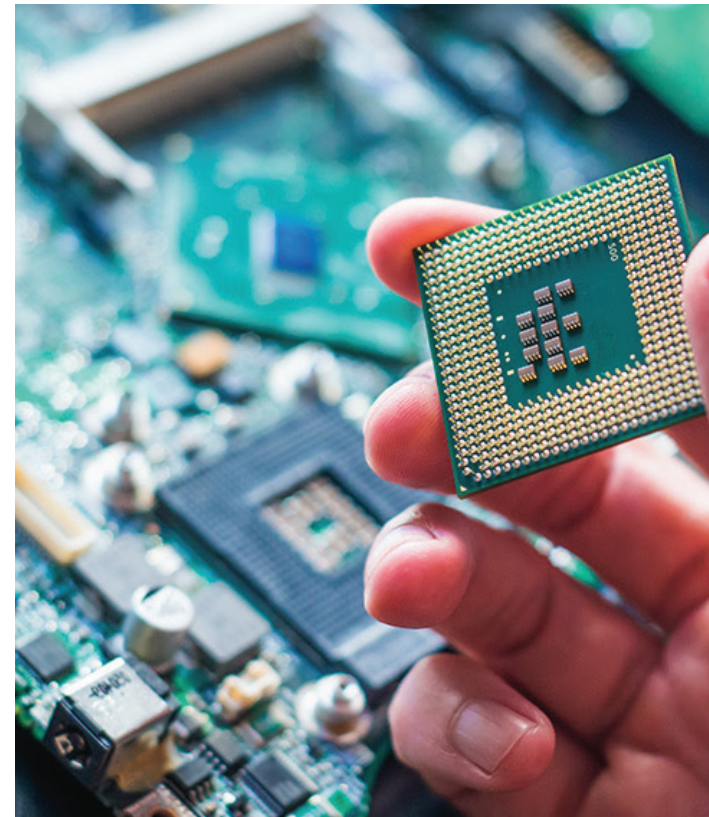

Academia International College is a mid-sized college that it is big enough to provide diversity in its students. You at Academia can take advantage of other resources provided by the college. You will be provided with an Academia International College email account which you can use to communicate with us. The subject teachers submit their reports online and you can read your report from a secure college website as soon as it has been approved.

Academia International College has well-equipped computer rooms (connected with networked teaching resources provided by the college) with computers, up-to-date scanners and printers. You can bring your computer to college as all rooms have connections for high-speed Wi-Fi internet access.

The College Management each semester makes sure that the library purchases up-to-date textbooks and periodicals related to degree reading lists. You are welcome to make purchasing suggestions as well.

You at Academia can also benefit from different training programs Academia Research Cell (ARC) offers, like:

a. HTML/CSS/PHP/Laravel
b. Java
c. .Net
d. Python
e. Mobile Apps Development
f. Computer Hardware Training
g. Tally
h. CV Writing/ReportWriting/ Thesis Writing Skill
i. Business Proposal Development
j. Public Speaking Skill/ Personality Development Training

h) Complied with all the application procedures.

Career Prospectus

What makes our CSIT graduates even more tempting is the career prospects and pay grades that they get with it. In fact, the Future of Jobs Report by the World Economic Forum shows that by 2022, companies are likely to adopt technologies that require definitive qualifications that come with a computer science degree. If that isn't enough to convince one, Forbes has rated job candidates with computer science degrees as one of the top 5 highest paid jobs. Furthermore, data science, a part of computer science degrees, is said to be among the most promising careers in the near future.

Moreover, as a CSIT graduate, one can become a software developer, web developer, database administrator, data analyst, SEO specialist, game developer, to name a few. We are proud of our Alumni, where many of our graduates are nation's emerging entrepreneurs running their own software companies.

Bachelor of Computer Application (BCA)
(Under Academic Management)

Objectives

- To train students to create solutions for information system-based needs and problems in commercial, financial, governmental, or other types of organizations.
- To provide knowledge on various tools, concepts, and techniques of software development.

> *Academia International College prospers on diversity. It provides an environment in which academically able students, from whatever background, can be happy and flourish.*

Applying to Academia

Finding out more: Visiting the College

If you want to find out more about us, your prospective course, and the College, then there are several things you can do.

There is no doubt that the best way to have all your questions answered and to get a real feel for the place is to visit our college Admissions Open Days. The details are posted on our website (www.academiacollege.edu.np). In addition, the College Website and Prospectus also contain detailed information about the course and the specific requirements, if any, for admission to the course. A typical Open day will allow you to meet several people who, like yourself, may be considering applying to Academia International College, as well as our Academic Councilors, who will be there to give you a guided tour of our facilities. On these occasions, it is possible to see student rooms and other facilities, such as the computer room, the library, etc.

You will have a chance to talk to the Admission Officer that might interest you and, as a result, you should be able to form a good idea of the course and how the College will help you get the most out of you.

Web and Other Resources

The Academia International College website www.academiacollege.edu.np has several information that may be of interest.

All enquiries for admission should be addressed in the first instance to the Admission Officer.

The address, telephone number, and email address are:
